

ANZICS CTG Publications FY2023 – 2024

BLENDER

[Blend to limit oxygen in ECMO: A randomised controlled registry trial: Study protocol and statistical analysis plan](#)

BLING III

[Continuous vs Intermittent \$\beta\$ -Lactam Antibiotic Infusions in Critically Ill Patients With Sepsis The BLING III Randomized Clinical Trial](#)

[Prolonged vs Intermittent Infusions of \$\beta\$ -Lactam Antibiotics in Adults With Sepsis or Septic Shock A Systematic Review and Meta-Analysis](#)

[Statistical analysis plan for the BLING III study: a phase 3 multicentre randomised controlled trial of continuous versus intermittent \$\beta\$ -lactam antibiotic infusion in critically ill patients with sepsis](#)

BONANZA

[Brain tissue oxygen monitoring in moderate-to-severe traumatic brain injury: Physiological determinants, clinical interventions and current randomised controlled trial evidence](#)

DRIVE RT NZ

[The Rise of Adaptive Platform Trials in Critical Care](#)

ECMOCARD

[Cerebrovascular Complications of COVID-19 on Venovenous Extracorporeal Membrane Oxygenation](#)

EPO TBI LTFU

[The effect of recombinant erythropoietin on long-term outcome after moderate-to-severe traumatic brain injury](#)

ICU RESOLVE

[In-person peer support for critical care survivors: The ICU REcovery Solutions cO-Led through surVivor Engagement \(ICURESOLVE\) pilot randomised controlled trial](#)

LOGICAL

[Protocol summary and statistical analysis plan for the low oxygen intervention for cardiac arrest injury limitation \(LOGICAL\) trial](#)

MEGA-ROX

[Protocol and statistical analysis plan for the mega randomised registry trial comparing conservative vs. liberal oxygenation targets in adults in the intensive care unit with suspected hypoxic ischaemic encephalopathy following a cardiac arrest \(Mega-ROX HIE\)](#)

REMAP-CAP

[Simvastatin in Critically Ill Patients with Covid-19](#)

[Intravenous Vitamin C for Patients Hospitalized With COVID-19 Two Harmonized Randomized Clinical Trials](#)

REVISE

[Proton pump inhibitors in critically ill mechanically ventilated patients with COVID-19: protocol for a substudy of the Re-Evaluating the Inhibition of Stress Erosions \(REVISE\) Trial](#)

[REVISE: Re-Evaluating the Inhibition of Stress Erosions in the ICU: a randomised trial protocol](#)

TARGET PROTEIN

[Study protocol for TARGET protein: The effect of augmented administration of enteral protein to critically ill adults on clinical outcomes: A cluster randomised, cross-sectional, double cross-over, clinical trial](#)
